TRY DIVE & PADI OPEN WATER COURSE

TRY DIVE - DISCOVER SCUBA DIVING

If you have never dived before and would like to see what it's like to breathe under water, do a Discover Scuba Diving session. One of our instructors will take you through a pool session covering some of the basics in the comfort of our heated indoor pool.

THE OPEN WATER COURSE

Who can do it?: Anyone 10 years of age or over who is in good health and reasonably comfortable in the water can learn to Scuba Dive. If you have certain pre-existing medical conditions you may need a medical with a GP beforehand. We can advise with this if required.

Home study: You learn via the tablet based PADI eLearning. Over 5 sections you will learn the basic principles for safe enjoyable diving. At the end of sections 1-4 is a Knowledge Review and Quiz, at the end of section 5 is a Knowledge Review and Exam, all of these are to be completed before you come to us for the first training weekend.

Classroom: We go over your home study to ensure you are happy with what you have learnt, and cover areas that might need more in-depth details, followed by a final test.

Pool: During five pool sessions you will master the in water skills you need as a diver. Having our own indoor pool heated to 32° allows you to learn these skills in comfort.

Open Water Dives: You will make four dives with an instructor where you will have fun applying and demonstrating the skills you have learned in the pool. In the UK these will usually be done at a lake in Surrey. Sites may however vary. For this part of the course, we allocate your dive kit to you, you are then

responsible for the transportation to the dive site along with your kit.

Inland Dive Site: We generally do our Open Water Dives at an Inland Dive Site. It will be a sheltered inland fresh water diver training site, this will ensure that you will be able to complete your certification dives in total safety. We use an inland site as the UK coastal weather can sometimes be against us.

Referral Course: Alternatively by taking the referral option, you will complete all of the pool and classroom sessions with us, before completing your open water dives abroad, either with us or at a destination arranged by yourself. We have regular trips to the Red Sea, Maldives, and other tropical destinations. Please ask for details.

WHAT IS INCLUDED

PADI Open Water eLearning (tablet based learning)

This consists of the PADI Open Water software which is accessible via your tablet or PC anytime anywhere, along with a digital manual included.

Equipment

We will provide the main equipment you need to complete your course. Along with your log book.

Certification

As part of your eLearning, your certification is included.

WHAT IS NOT INCLUDED

You Provide

Swimming costume, T-shirt & Towel, your lunch. Mask & Snorkel which are not provided on the basic Open Water Course, but can be included when you purchase one of our Open Water course packages.

Site entrance fees: £10 - £18 per day.

Transport to and from dive sites, please note you will be taking your dive equipment with you.

Overnight accommodation if required, £25 upwards.

During your DSD or your Open Water Course, where possible we would like to take some photos and perhaps a video so that you can share them with your friends and family. We will put these on our FACEBOOK page where we hope that you will LIKE us and tag and share your pictures and videos.
